

## Stage 3B: Export & Import EYF data into NC Early Years F 2022 Markbook FOR SCHOOLS USING THE Integris EYFS PRIME & SPECIFIC MARKBOOKS

These steps are to be undertaken by the Integris Administrator

**Stage 3B** steps cover the following:

1. Set up the **EYF Export for EoYR** markbook
2. Check and export EYF 2022 return data
3. Import EYF 2022 data into the **NC Early Years F 2022** markbook
4. Enter Learning Characteristics data if required

### 1. Set up the EYF Export for EoYR markbook

1. Go to **Modules > Assessment > Assessment Planning** > click + next to **EYFS from 2021** > click + next to **EYF Export** and select the **EYFS Export** markbook
2. Click on **Deploy** (top right of screen) and click **No** to the next prompt

A copy of the **EYFS Export** markbook is now copied into the same folder under your **My Assessment Plans** and is highlighted

3. Click the **Edit** icon  > click the **Enrolled Groups** tab > click the **+ Add an Enrolled Group**  
The next window defaults to displaying classes with the teacher names linked to each class.
4. Change the **Enrolled Group Type** field to **Year Group** > select **Year Reception** > click **Add** > click **Close**.  
You should now see a **Year Group Reception for 2021/2022** added to the list.
5. Select **Year Group Reception** in the list and click on the **Add Markbook Users**  icon.
6. Select your own user account (as the administrator) who will be creating the EYFS return file to send to the LA and click **OK** > click **Save**.

### 2. Check and export EYF 2022 return data

1. Go to **Modules > Assessment > Markbook** > click + next to **My Markbooks** > select the **EYFS Export for Year Reception** > click on **Open a markbook** icon  to view it.

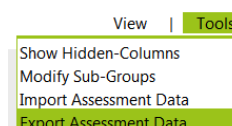

2. Check that the data is complete (all the pupils should have values in each column) – if data is missing, then the EYFS Prime or Specific Progress markbook needs to be checked for missing data before proceeding.

The data for these columns have been drawn from the normal EYF YR Prime and YR Specific markbooks that your teachers regularly use. If any data is missing, then the EY teacher needs to enter the missing data into their normal EYF Specific and Prime markbooks (refer to Stage 3 instructions). If the data is entered and saved there, it will automatically appear in this markbook.

Markbook - EYFS Export - Class 3A (2021/2022)

	Apply Filter...	Show...	Listening/Understanding	Speaking	Gross Motor	Fine Motor	Self Regulation	Managing Self	Relationships	Comprehension	Word Reading	Writing	Number	Numerical Patterns	Past Present	People/Culture/Comm	Natural World	Create with Materials	Imaginative/Expressive
Name																			
Bail, Luce			1	2	1	2	2	1	2	1	1	2	1	2	1	2	2	1	2
Branston, Pickle			2	2	2	2	2	2	2	2	2	2	2	2	2	2	2	2	2
Demskey, Darling			1	1	2	1	2	2	1	1	1	2	2	2	1	2	2	2	1
Houdini, Harry			2	2	2	2	1	2	2	1	2	1	2	1	2	1	2	1	2

3. Click on **Tools** link (top right) and from the menu select **Export Assessment data**
4. Click **Next** at the pop-up window > click **Next** again > click **Export**

## Stage 3B: Export & Import EYF data into NC Early Years F 2022 Markbook FOR SCHOOLS USING THE Integris EYFS PRIME & SPECIFIC MARKBOOKS

A csv file called *EYF Export \_ Year Reception* is now created and dependent on your browser, you can either **Save** or **Open** the file

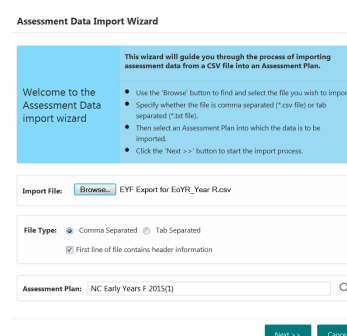

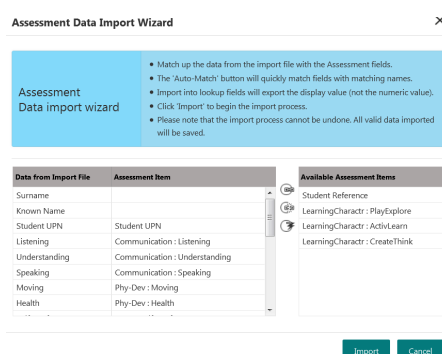

- Check the file to ensure all the pupil names and expected data is present.
- Now go to the **File > Save As** menu and select a folder to save the file in – *the file will automatically be called **EYFS Export\_Year R.csv**. Make a note of the folder you have saved this file in.*
- Close** File – say Yes to all the prompts and close Excel.
- Back in Integris, click **Back** to exit out of the **EYFS Export** markbook.

### 3 Import EYF 2022 data into the NC Early Years F 2022 markbook

**Note: Stage 1 – Assessment set up instructions must be completed before proceeding with this step!**

You now need to import the EYFS 2022 data into the ‘official’ **NC Early Years F 2022** markbook to enable you to make an EYF CTF return and also to link the EYF data to each individual pupil record automatically (*i.e. to enable CTFs to include EYF data for future leavers; to enable EYF data to appear in prior attainment units in tracking markbooks etc.*)

- In Integris, go to **Modules > Assessment > Utilities > Assessment Import**
- In the next **Assessment Data Import wizard** window, click **Browse** and select the **EYFS Export.csv** file previously saved and click **Open**
- Click on the Mag glass icon > click **+** next to **My Assessment Plans** > click **+** next to **Early Years** folder > select **NC Early Years F 2022** > click **Next**
- In the next window, click **Auto-Match**  icon which will automatically match the data columns from the **NC Early Years F 2022** markbook (*in the right pane*) to the data columns in your csv file (*in the left pane*) as below

Data from Import File	Assessment Item	Available Assessment Items
Surname		Student Reference
Known Name		LearningCharacter : PlayExplore
Student UPN	Student UPN	LearningCharacter : ActvLearn
Listening	Communication : Listening	LearningCharacter : CreateThink
Understanding	Communication : Understanding	
Speaking	Communication : Speaking	
Moving	Phy-Dev : Moving	
Health	Phy-Dev : Health	

**Note:** the remaining columns in the right pane should be the Learning Characteristics columns that need to be addressed/completed in the **NC Early Years 2022** markbook – we will come to this in note below.

- Now click **Import**  
An **Import Progress** window appears followed by an ‘**Import of Assessment Data has imported successfully**’ message. [If there is an error report message, open the report to see the details of the issue – this is normally when a pupil exists in the csv file and not in the markbook and vice versa]
- Click **OK**.
