

Stage 7 – Interactive Analysis of KS1 TA data 2022

There are **two** types of analysis that can be used with the KS1 TA data:

1. **Transition Matrix tool** to view a **percentage at each outcome data table** for one/two subjects and hibernation sheets
2. **Percentage Report** at each outcome for R,W & M **combined** (and Hibernation sheet)

1. Using Transition Matrix tool to calculate KS1 'percentages at' each outcome table

Follow these steps to produce a report for KS1 Reading

1. Go to **Assessment > Markbook** > select the **NC Key Stage 1 2022** markbook > click **Transition Matrix** button (4th large button on the right of the screen)
2. In the pop-up window, select **KS1 En Rea** column from the **Vertical Assessment Item** drop-down list
3. Select the same **KS1 En Rea** column from the **Horizontal Assessment Item** drop-down list
4. Click **Generate** and click **Yes** to the 'same assessment item' prompt – to see following table

- Click **Back** to exit.
- Repeat from Step 1 above for **KS1 Writing** and then again for **KS1 Maths** and **KS1 Science** (selecting KS1 En Wri, KS1 Ma TA & KS1 Sc TA columns respectively)
- To compare **KS1 Reading with KS1 Writing**: select KS1 En Rea column for **Vertical assessment item** and select KS1 En Wri column for **Horizontal Assessment item** > click **Generate**
